What is the Arizona Early Childhood Development and Health Board (First Things First)?

In November 2006, Arizona voters passed Proposition 203, also known as **First Things First**, a citizen's initiative that funds quality early childhood development and health at the state and local level. The Proposition created a new state level board known as the Arizona Early Childhood Development and Health (AzECDH) Board, also known as the Board of First Things First, and the Regional Partnership Councils.

First Things First Mission

The mission of First Things First is to increase the quality of, and access to, early childhood programs that will ensure a child entering school arrives healthy and ready to succeed. This mission will principally be achieved through regional grants tailored to the specific needs and characteristics of the communities that the regions serve, with a focus on demonstrating improved outcomes around First Things First's six goal areas prioritized by the challenges the regions face. This mission is also accomplished through statewide initiatives that have been prioritized by the Board of First Things First.

This statewide policy and regional perspective are critical to the success of the First Things First mission. Early childhood development and health system initiatives from First Things First will be coordinated through statewide initiatives and regional priorities.

First Things First Goal Areas

The First Things First initiative specifies that programs undertaken by the Arizona Early Childhood Development and Health Board and the Regional Partnership Councils are to accomplish one or more of the following Goal Areas:

- Improve the quality of early childhood development and health programs.
- Increase the access to quality early childhood development and health programs.
- Increase access to preventive health care and health screenings for children through age five.
- Offer parent and family support and education concerning early childhood development and literacy.
- Provide professional development and training for early childhood development and health providers.
- Increasing coordination of early childhood development and health programs and provide public information about the importance of early childhood development and health.

What is the Funding Source?

The First Things First initiative provides for the distribution of funding through both statewide and regional grants.

Of the monies expended in a fiscal year from the First Things First program account, no more than ten percent may be used to fund statewide grants or programs. Statewide programs are considered those implemented across regional boundaries and are designed to benefit Arizona's children as a whole.

This Request for Grant Application is specifically dedicated to funding regional programs. Regional funding is based on the approval of the Regional Partnership Council funding plans submitted to the Board of First Things First.

The Regional Partnership Council that is involved in the release of this Request for Grant Application is the Yuma Regional Partnership Council.

Who is Eligible to Apply for this Funding Opportunity?

First Things First awards grants to:

- Non-profit 501 (c) (3) organizations providing services in Arizona (both secular and faith-based)
- Units of Arizona government (local, county and state entities as well as schools and school districts)
- Federally recognized Tribal governments or entities providing services within Arizona
- Arizona institutions of higher learning (colleges and universities)
- Private organizations providing services in Arizona

All potential Applicants must demonstrate organizational, fiscal and programmatic capacity to meet the requirements described in the scope of work listed in this RFGA.

What is the Total Funding Amount Available in this Request for Grant Application?

This is a twelve (12) month contract for the fiscal year ending June 30, 2011 with an option for renewal for two (2) additional twelve (12) month periods. Total funds available are approximately \$303,266 for the first funding period. First Things First reserves the right not to award the entire amount of available funds or to award an amount that is greater than the posted available funds. Renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds.

Scope of Work: What Will This Grant Fund?

Strategy Overview

The Yuma Regional Partnership Council (RPC) has identified the need for regional implementation of all the following strategies:

- Utilize a trained oral health provider to increase children's access to preventative dental health care by:
 - Educating child care providers/educators on the importance of preventative oral health care and how to recognize and understand oral diseases and conditions;
 - Encouraging child care providers/educators to lay the foundation for a lifetime of good oral health by implementing classroom-based tooth brushing and by providing oral health education and resources (tooth brush, paste, etc) to children/students;
 - Educating child care providers/educators on how to talk to parents on the importance of oral health care and how to explain what preventative oral health care includes, as appropriate; and
 - Encouraging child care providers/educators to make appropriate referrals for improved oral health.
- Increase delivery of oral health screenings, apply fluoride applications (varnish), and refer families for oral health care.
- Inform parents about the importance of preventive oral health care for children ages birth through five, and conduct outreach to connect families to preventive oral health care treatments.
- Encourage families to seek preventive oral health care for children birth through age five, and instill positive oral health habits among young children.
- Conduct outreach to dentists and other oral health professionals encouraging them to address the oral health needs of children birth through age five utilizing educational tools such as the North Carolina Baby Oral Health kit.
- Conduct outreach to health providers on the importance of early oral health screenings beginning at age one year in order to increase the number of families with infants and toddlers scheduling oral health screenings for their child.
- Conduct outreach and education to increase oral health professional's capacity and ability to serve children with special needs.

Target Population

This multifaceted strategy incorporates several target populations through this funding opportunity:

- children birth through age five;
- their families, especially those lacking access to preventative dental care;
- the regulated child care providers who provide child care services to them in both centers and homes;
- Dentists and other health care providers who provide services within the defined region that comprise the Yuma County.

Priority will be given to programs that deliver services to:

- Children falling into low socio-economic status (free/reduced lunch, 50 percent of children in center eligible for D.E.S. subsidy).
- Areas of the region where there is no fluoride added to the water.

Geographic Boundaries

The Yuma Regional Partnership Council serves all of the communities located in Yuma County, including the Quechan Tribe (Ft. Yuma) but not the portion of the Ft. Yuma Reservation (Quechan) in California and does not include the Cocopah Tribal lands. Applicants responding to this RFGA must be able to provide services throughout the region identified in the RFGA.

Assessment of Need

Tooth decay is the single most common chronic infectious disease of childhood; five times more common than asthma. Low income and minority children have more untreated decay and visit the dentist less frequently. Oral disease is progressive and cumulative and, if left untreated, can lead to needless pain and suffering; difficulty in speaking, chewing and swallowing; missed school days; increased cost of care; and a greater risk for other systemic health problems due to poor nutrition. Connections are emerging between the condition of the mouth and diabetes, heart disease, and preterm, low-weight births.

It appears that lack of dental care and incidence of tooth decay begins well before children reach school. A study completed by the Arizona Department of Health Services studying children's oral health status from 1999 to 2003 determined that 35 percent of Arizona kindergarten students (mainly five year olds) had untreated tooth decay, and half of Arizona kindergarteners had experience with tooth decay. This same study also found that 25 percent of all Arizona kindergarten students had never been seen for a dental visit and of those children, 59 percent came from Hispanic families and 35 percent had family incomes of less than \$15,000 per year.

The American Academy of Pediatric Dentistry (AAPD) recognizes that tooth decay is a common, complex, chronic disease resulting from an imbalance of multiple risk factors and protective factors over time. To decrease the risk of developing caries (tooth decay) a potentially devastating infectious disease, the AAPD encourages professional and preventive measures by families of young children.

Lack of dental coverage may be a contributing factor to lack of oral health among children. For example, the Arizona Department of Health Services' 2003 Community Health Profile for Phoenix shows that 25 percent of children lack dental insurance. Children whose families earn 200 percent of the Federal Poverty Level are less likely to qualify for Kidscare or AHCCCS – public health insurance programs that both offer preventive dental care.

Fluoride varnishes are a proven intervention for reducing the incidence of dental caries (tooth decay) in young children. Oral health screenings and subsequent referrals to dental coverage and treatment are also effective ways of addressing dental needs cost effectively. The effectiveness of fluoride varnish when applied to young children is a proven intervention when properly applied to reduce the incidence of dental caries (tooth decay) in young children.

According to the Yuma County Needs and Assets Report of 2008, there are 21,082 children between the ages of birth through five in Yuma County. Of these children, 6,065 live at or below the poverty level. In the area of oral health, 69% of Yuma County children have experienced dental decay compared to 62% for the entire state of Arizona. These children had an average of 4.71 teeth with decay and 45% of Yuma County children are reported to have untreated dental decay.

There are approximately 74 licensed centers, Head Start and small group homes in the city of Yuma, another 11 programs are located in San Luis, with an additional 249 homes around the region. A total of approximately, 3,140 are enrolled in programs with some sort of licensure or affiliation, which is 15 percent of the children birth through five in the region. The service goal of the strategy is to target approximately 6,000 children through their child care provider for screening and fluoride varnish treatments. The service goal for component two of this strategy is 40 health care providers (dental and health) including clinics that provide services to children birth to age five.

Access to oral health care is even more challenging for families who have children with special health care needs. In 2007, a statewide Health Provider Survey report released documenting that 40 percent of dental providers did not provide dental services to children with special needs because they did not have the adequate training, 38 percent did not feel that it was compatible with the environment of their practices and 19 percent reported not serving this population due to inadequate reimbursement for these patients.

Implementation Requirements

As part of successful program implementation, Applicants are asked to describe how the services they propose to provide will be targeted to families with children birth through age five who are likely to lack access to preventive dental care. The Applicant should describe how they will identify and engage child care homes and centers within the area they are proposing to serve in order to participate in this oral health program. The Applicant should also identify the number of children and child care centers and/or homes they propose to serve. In addition the Applicant must describe how they will provide outreach to dental and health care providers to provide education on the importance of oral health screening for children as young as one year of age.

This Request for Grant Application is seeking Applicants to address these specific Goals and Key Measures:

First Things First Goal Area to be addressed:

- Health

First Things First Goal to be addressed:

- First Things First will collaborate with existing Arizona early childhood health care systems to improve children's access to quality health care.

First Things First Key Measures to be addressed:

- Total number and percentage of children receiving appropriate and timely oral health visits
- Total number and percentage of oral health care providers utilizing a dental home model
- Percentage of families with children birth through age five who report they are satisfied with the accessibility of information and resources on child development and health, specifically oral health

For more information on First Things First Goal Areas, Goals and Key Measures, please visit:
http://www.azftf.gov/WhatWeDo/Impacting/Documents/azftf_Strategic_Road_Map2008.pdf

Successful Applicants will be asked to:

- Describe how they will deliver oral health screenings, varnish applications, and referrals for oral health care in a variety of community settings such as child care centers, Child Find activities, dental/physician offices, and other appropriate community settings/events where families of children birth through age five are at risk for frequent dental caries.
- Conduct outreach activities, screenings, and varnish applications for families with children birth through age on days and hours that lend themselves to reaching the target population.
- Assist families to develop and maintain referral and support networks with community oral health professionals in order to establish a dental home for the child and family.
- Establish a system for monitoring of the referral status and success of referral will be tracked in addition to conducting follow-up to improve the likelihood of follow-up treatment.
- Describe Outreach activities to be conducted to include encouraging dentists and other oral health professionals to address the oral health needs of children birth through age five as well as to inform eligible families of the availability of public health coverage and connect families to available public health insurance enrollment efforts.
- Describe plans for outreach, recruitment and engagement of child care centers and homes, demonstrating how they will effectively target preventive oral health efforts to families of children birth through age five with limited access to preventative dental care.
- Describe methods to be used to conduct parent education and outreach, evidence of their effectiveness, description of any curriculum, materials or incentives to be used regarding the benefits of preventative oral health care for children as well as encouraging those families to seek preventive oral health care for children birth through age five and instill positive oral health habits among young children, which could include distribution of toothbrushes or other materials. If conducting media campaigns, Applicants must describe type of media proposed for purchase, the reason for selection, and the media impressions expected.

- Describe methods planned to encourage dentists and other oral health professionals to address the oral health needs of children birth through age five, any evidence of their effectiveness, and describe any curriculum or materials that will be used.
- Describe Public health insurance outreach and enrollment assistance to reflect needs and assets data and be aligned with any outreach and enrollment assistance conducted by other community based efforts.
- Describe method needed to obtain parental consent prior to oral health screening, application of fluoride varnish, and referral for oral health treatment.

Applicants should demonstrate their knowledge and experience using educational tools such as the North Carolina Baby Oral Health kit to educate dentists in the need to serve children beginning at age one year and provide them with age appropriate strategies for screening very young children. Applicants must show staff qualifications, supervision and training that will support the successful implementation of service delivery. Funding under this grant opportunity allows for the expansion of existing community-based and state organizations that are currently providing oral health services, allowing them to expand to target populations they do not currently serve with emphasis on un-served or underserved geographic areas.

The successful Applicant will work to develop an effective system for reaching and serving the entire region, including rural communities with limited oral health resources. Applicants who propose mobile delivery care must outline procedures, maintenance of records, service delivery schedules, and referral for treatment required beyond the scope of this RFGA. Use of telemedicine to enhance screenings and diagnostic procedures for persons in rural and underserved communities may be considered.

Through the Applicant or proposed subcontractors of the Applicant, capacity and experience conducting dental screenings and complete application of fluoride varnishes must be demonstrated.

Applicants must demonstrate capacity to facilitate referrals to oral health professionals and to monitor referral status/success of the referral, conducting appropriate follow-up as needed to increase the likelihood that families connect with needed additional dental care as well as the capacity to connect families to available public health insurance enrollment assistance as needed.

Through this grant opportunity, First Things First seeks Applications from entities that demonstrate experience working with populations whose demographics (culture, language, rural, urban, etc.) are similar to the region's population. Priority may be given to Applicants who are established within the region, to Applicants who have existing collaboration with other service agencies located within the region, as well as to Applicants who have prior experience implementing the same or similar type of strategy.

Applicants conducting parent education and outreach or efforts aimed at encouraging dentists and other oral health professionals to address the oral health needs of children birth through age five should possess experience conducting similar public health or social marketing efforts.

Applicants proposing any oral health program must comply with the First Things First Standards of Practice for Oral Health Care for Children birth through age five, and are outlined at the end of this document: Oral Health Standards of Practice (Exhibit A).

Coordination

Coordination and collaboration among early childhood service providers is critical to developing a seamless service delivery system for children and families. Through coordination and collaboration, organizations begin to look at how they can change the way they work together so that they deliver services to children and families in new, more effective and efficient ways. As a result of coordination and collaboration, services are often easier to access and are implemented in a manner that is more responsive to the needs of the families. Coordination and collaboration may also result in greater capacity to deliver services because organizations are working together to identify and address gaps in service.

Services and programs cannot be implemented in isolation. Successful applicants must demonstrate capacity to attend meetings and participate productively in coordination and collaboration activities occurring within the First Things First region being served. In order to accomplish this, Applicants should plan the appropriate staffing and budget to support travel to and attendance at monthly meetings within the regional area.

In order to promote regional and statewide service coordination First Things First grantees may also be requested to participate in regional and statewide meetings. First Things First staff and Regional Councils will identify these additional coordination and collaboration opportunities. To ensure the capacity to participate in these activities, Applicants should plan the appropriate staffing and budget to support travel to and attendance at five additional meetings, four within the region or in a neighboring region and one in the Phoenix area. All travel related costs for these trainings and meetings should be included in the Applicant's budget.

Program Specific Data Collection

All successful Applications will be provided with data reporting requirements by First Things First and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data including the electronic submission (through First Things First secure web portal known as PGMS) of data identified in data reporting templates (which will follow the First Things First general orientation).

First Things First reporting requirements will be aligned with the Goals, Key Measures, and Performance Measures identified in each Scope of Work. The purpose of the First Things First data submission is to determine the extent to which the program has accomplished the stated goals and key measures, through reporting on program implementation as well as program outcomes (as appropriate and identified in the performance measures).

Successful Applicants agree to participate in the First Things First evaluation and any program specific evaluation or research efforts. Successful Applicants are required to collaborate with

the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information; all of which must be maintained in a secure and confidential manner. In addition, Applicants agree to follow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants will collect and report data to First Things First on the progress of achieving the Performance Measures. All Successful Applicants will receive training on specific reporting requirements. Reporting requirements will be detailed and specific and aligned with the performance measures. Data must be submitted in its raw form (e.g., number of children served/proposed service number = 52 actual children served/50 proposed service number). Based on specific strategic objectives, data will be reported for subgroups, for example, one group of strategies may require reporting of the number of children from birth through five, whereas other strategies will need to report numbers broken down to number of infants, toddlers, and preschoolers. An additional example, would be for type of Early Care provider or enrollment status. Examples of subgroups of Early Care providers are licensed with the Arizona Department of Health Services, accredited, regulated by Tribal authorities, etc; examples of family enrollment statuses are newly enrolled, continuing enrollment, disenrolled.

Performance Measures for the purposes of this RFGA are as follows:

- Number and percentage of children receiving timely oral health screenings/proposed service number
- Number and percentage of expectant mothers receiving timely oral health screenings/proposed service number
- Number of oral health kits distributed/proposed service number
- Number of children newly enrolled in public health insurance/proposed service number
- Number of communities within the region where screenings are delivered/proposed service number

- Number of media impressions/proposed service number
- Number of referrals/proposed service number
- Number and percentage of children receiving fluoride varnish/proposed service number
- Number of parents showing increases in knowledge and skill after receiving services/actual service number (minimum questions provided by First Things First)
- Number of parents reporting satisfaction with provided services/actual service number (minimum questions provided by First Things First)
- Number of professionals showing increases in knowledge/actual service number (minimum questions provided by First Things First)

- Number of professionals (dentists, hygienist, etc.) reporting satisfaction with provided services/actual service number (minimum questions provided by First Things First)

This component will address questions about how the program is working and what can be done to make the program more effective. The evaluation plan should be directly connected to the Goals, Key Measures, and Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure implementation fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation.

Applicants must include a plan for Evaluation and Quality Improvement by completing the following questions.

26. Describe any additional program evaluation activities or data collection that will be undertaken during the implementation of the proposed strategy.
27. Who will have overall responsibility for the data collection and reporting? Be sure to include this person in your Key Personnel Overview (Attachment C).

What procedures will be in place to assure the quality of your data (e.g., training for data collectors, data collection forms, timeliness for administering tools, etc.)?
29. Complete the Evaluation Plan Overview table in Attachment J.
30. What resources (e.g., personnel, supplies, computer, etc.) will be needed to complete necessary activities related to the quality data input and data collection of the program? In addition to a narrative description, the funds dedicated to evaluation should be reflected in the budget.

A. Inquiries

1. Duty to Examine. It is the responsibility of each Applicant to examine the entire RFGA, seek clarification in writing (inquiries), and examine its' Application for accuracy before submitting the Application. Lack of care in preparing an Application shall not be grounds for modifying or withdrawing the Application after the Application due date and time, nor shall it give rise to any Contract claim.
2. RFGA Contact Person. Any inquiry related to an RFGA, including any requests for or inquiries regarding standards referenced in the RFGA shall be directed solely to the RFGA contact person. The Applicant shall not contact or direct inquiries concerning this RFGA to any other State employee unless the RFGA specifically identifies a person other than the RFGA contact person as a contact.
3. Submission of Inquiries. The Grants and Contracts Procurement Specialist identified in this RFGA, who is the contact for all inquiries except at the Pre-Application Conference, requires that an inquiry be submitted in writing. Any inquiry related to the RFGA shall refer to the appropriate RFGA number, page and paragraph. Do not place the RFGA number on the outside of the envelope containing that inquiry, since it may then be identified as an Application and not be opened until after the Application due date and time. Electronic inquiries are acceptable. First Things First shall consider the relevancy of the inquiry but is not required to respond in writing.
4. Timeliness. Any inquiry or exception to the RFGA shall be submitted as soon as possible and should be submitted at least seven days before the Application due date and time for review and determination by First Things First. Failure to do so may result in the inquiry not being considered for an RFGA Amendment.
5. No Right to Rely on Verbal Responses. An Applicant shall not rely on verbal responses to inquiries. A verbal reply to an inquiry does not constitute a modification of the RFGA.
6. RFGA Amendments. The RFGA shall only be modified by a formal written RFGA amendment. Formal written amendments are posted on the First Things First website, www.azftf.gov. It is the sole responsibility of the Applicant to check the website regularly.

Any doubt as to the requirements of the RFGA or any apparent omission or discrepancy should be presented to First Things First at the Conference. An Applicant may not rely on any verbal responses to questions at the Conference. Material issues raised at the Conference that result in changes to the RFGA shall be answered solely through a formal written RFGA amendment. **Attendance at the Pre-Application Conference is strongly encouraged, but not mandatory.**
8. Persons with Disabilities. Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting the RFGA contact person. Requests shall be made as early as possible to allow time to arrange the accommodation.

The certificates for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf.

Failure to maintain the insurance policies as required by this Contract, or to provide evidence of renewal, is a material breach of contract.

- G. All certificates required by this Contract shall be sent directly to (First Things First, Grants and Contracts Procurement Specialist, 4000 N. Central, Suite 800, Phoenix, AZ 85012). The State of Arizona project/contract number and project description shall be noted on the certificate of insurance. DO NOT SEND CERTIFICATES OF INSURANCE TO THE STATE OF ARIZONA'S RISK MANAGEMENT SECTION.
- H. SUBCONTRACTORS: Grantees' certificate(s) shall include all subcontractors as insureds under its policies or Grantee shall furnish to the State of Arizona separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to the minimum requirements identified above.
- I. Such action will not require a formal Contract amendment, but may be made by administrative action.
- J. EXCEPTIONS: In the event the Grantee or sub-contractor(s) is/are a public entity, then the Insurance Requirements shall not apply. Such public entity shall provide a Certificate of Self-Insurance. If the Grantee or sub-contractor(s) is/are a State of Arizona agency, board, commission, or university, none of the above shall apply.

5.4 Force Majeure. If either party hereto is delayed or prevented from the performance of any act required in this Agreement due to acts of God, strikes, lockouts, labor disputes, civil disorder, or other causes without fault and beyond the control of the party obligated, performance of or payment for such act will be excused for the period of the delay.

5.5 Third Party Antitrust Violations. The Grantee assigns to First Things First any claim for cover charges resulting from antitrust violations to the extent that those violations concern materials or services supplied by third parties to the Grantee, toward fulfillment of this Contract.

6. Compliance

6.2 Sectarian Requests. Funds may not be expended for any sectarian purpose or activity, including sectarian worship or instructions.

6.3 Restrictions on Lobbying. The Grantee shall not use these funds to pay for, influence, or seek to influence any officer or employee of First Things First, state government or the federal government if that action may have an impact, of any nature, on this contract.

6.4 Licenses. Grantee shall maintain in current status all federal, state and local licenses and permits required for the operation of the business conducted by the Grantee.

- 6.5 Fingerprinting. Pursuant to A.R.S. §41-1758 Grantee will obtain fingerprint cards and/or background checks as applicable.

This Contract may be cancelled or terminated if the fingerprint check or the certified form of any person who is employed by a provider, whether paid or not, and who is required or allowed to provide services directly to children, discloses that a person has committed any act of sexual abuse of a child, including sexual exploitation or commercial sexual exploitation, or any act of child abuse or that the person has been convicted of or awaiting trial on any criminal offenses in this state or similar offenses in another state or jurisdiction.

7. State's Contractual Remedies

- 7.1 Right to Assurance. If First Things First in good faith has reason to believe that the Grantee does not intend to, or is unable to perform or continue performing under this Contract, the Grants and Contracts Procurement Specialist may demand in writing that the Grantee give a written assurance of intent to perform. Failure by the Grantee to provide written assurance within the number of Days specified in the demand may be, at First Things First's discretion, the basis for terminating the Contract under the First Things First Uniform Terms and Conditions or other rights and remedies available by law or provided by the contract.
- 7.2 Cancellation for Failure to Perform. Failure by the Grantee to adhere to any provision of this Agreement or its Attachments in the time and manner provided by this Contract or its Attachments shall constitute a material default and breach of this Contract and First Things First may cancel, at its option, this Agreement upon prior written notice.

First Things First may issue a written ten (10) day notice of default to the Grantee for acting or failing to act including but not limited to any of the following:

If the Grantee does not correct any problem(s) within ten (10) days after receiving the notice of default, First Things First may cancel the Contract. If First Things First cancels the Contract pursuant to this clause, First Things First reserves all rights or claims to damage for breach of the Contract and the Grantee agrees to a general release in favor of First Things First for any claim for reimbursement.

- 7.3 Non-Exclusive Remedies The rights and the remedies of First Things First under this Contract are not exclusive.

8. Contract Termination

- 8.1 Cancellation for Conflict of Interest. Pursuant to A.R.S. §38-511, First Things First may cancel this Contract within three (3) years after Contract execution without penalty or

further obligation if any person significantly involved in initiating, negotiating, securing, drafting or creating the Contract on behalf of First Things First is or becomes at any time while the Contract or an extension of the Contract is in effect an employee of or a consultant to any other party to this Contract with respect to the subject matter of the Contract. The cancellation shall be effective when the Grantee receives written notice of the cancellation unless the notice specifies a later time. If the Grantee is a political subdivision of the State of Arizona, it may also cancel this Contract as provided in A.R.S. §38-511.

- 8.2 Suspension or Debarment. First Things First may, by written notice to the Grantee, immediately terminate this Contract if First Things First determines that the Grantee has been debarred, suspended or otherwise lawfully prohibited from participating in any public procurement activity, including but not limited to, being disapproved as a subcontractor of any public procurement unit or other governmental body. Submittal of an Application or execution of a contract shall attest that the Grantee is not currently suspended or debarred. If the Grantee becomes suspended or debarred, the Grantee shall immediately notify First Things First.
- 8.3 Termination for Convenience. First Things First reserves the right to terminate the Contract, in whole or in part at any time, when in the best interests of First Things First without penalty or recourse. Upon receipt of the written notice, the Grantee shall stop all work, as directed in the notice, notify all subcontractors of the effective date of the termination and minimize all further costs to First Things First. In the event of termination under this paragraph, all documents, data and reports prepared by the Grantee under the Contract shall become the property of and be delivered to First Things First upon demand. The Grantee shall be entitled to receive just, equitable compensation for work in progress, work completed, and materials accepted before the effective date of the termination. The cost principles and procedures provided in A.A.C. R2-7-701 shall apply.
- 8.4 Termination for Default. In addition to the rights reserved in the contract, First Things First may terminate the Contract in whole or in part due to the failure of the Grantee to comply with any term or condition of the Contract, to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Contract. The Grants and Contracts Procurement Specialist shall provide written notice of the termination and the reasons for it to the Grantee. Upon termination under this paragraph, all materials, documents, data and reports prepared by the Grantee under the Contract shall become the property of and be delivered to First Things First on demand. Upon termination of this Contract, First Things First may procure, on terms and in the manner that it deems appropriate, materials or services to replace those under this Contract. First Things First Oral Health Care for Children Ages Birth through Five Standards of Practice

The American Academy of Pediatric Dentistry recognizes that caries is a common, complex, chronic disease resulting from an imbalance of multiple risk factors and protective factors over time. To decrease the risk of developing caries, a potentially devastating infectious disease, the AAPD encourages professional and at-home preventive measures including age-appropriate feeding practices that do not contribute to a child's caries risk.

According to the Centers for Disease Control, one in five children aged two through five years have untreated dental caries. That number jumps to 33.5 percent in children aged two through eleven years who are living at less than 100 percent of the Federal Poverty Level. There are other risk factors that increase the likelihood of dental caries in children such as limited access to routine oral healthcare, poor oral hygiene, increased consumption of certain foods and sugar sweetened beverages and some medical conditions.

To prevent dental caries among young children, the AAPD recommends several strategies including but not limited to: parent information on oral health care, first dental visit by age one, fluoridated public water supplies and topical fluoride application. First Things First Regional Partnership Councils will fund a variety of oral health strategies to improve the oral health status of children birth through five.

ALL PROGRAMS IMPLEMENTING ORAL HEALTH STRATEGIES WILL:

- Hire staff who reflect the cultural and ethnic experiences and language of the families with whom they work.
- Hire staff with the appropriate qualifications to deliver the specific services in the scope of work.
- Assure that staff receive specific training to carry out oral health activities.
- Provide ongoing staff development on diversity issues.
- Maintain confidentiality of all information obtained as part of the oral health program.
- Establish an effective, consistent supervisory system that provides support for all staff members and ensures accountability to participants, funders and the community.
- Assure that evaluation and monitoring is a collaborative, ongoing process that includes feedback from staff, families and community members.

"To address cultural competency objectives, early childhood practitioners /early childhood service providers shall ensure that children and families receive from all staff members' effective, understandable, and respectful care that is provided in a culturally competent manner- a manner compatible with their cultural beliefs and practices and preferred language. Early childhood practitioners /early childhood service providers should ensure that staff at all levels and across all disciplines receive ongoing education and training in culturally and linguistically appropriate service delivery. Early childhood practitioners/early childhood service providers should develop participatory, collaborative partnerships with communities and utilize a variety of formal and informal mechanisms to facilitate community and family-centered involvement to ensure that services are delivered in a manner that is consistent with the National Standards on Culturally and Linguistically Appropriate Services and/or

the National Recommendations on Cultural and Linguistic Competence for the National Association for the Education of Young Children.” <http://minorityhealth.hhs.gov/templates/browse.aspx?lvl=2&lvlID=15> ; <http://www.naeyc.org/positionstatements/linguistic>

The following sections apply to specific strategy types.

PARENT EDUCATION

Qualifications for parent education

Health professionals with appropriate and relevant training and experience can provide parent education regarding the oral health of children ages birth through five.

Have excellent communication skills.

Have a comprehensive understanding of community, social and governmental resources available to support the oral health care of families.

Programs implementing a parent education component in an oral health strategy will:

Provide information on the following topics:

- The importance of dental treatment for pregnant and postpartum women. Reducing the mother’s/primary caregiver’s/sibling(s).
- Minimizing saliva-sharing activities (e.g., sharing utensils) between an infant or toddler and his family/cohorts.
- Implementing oral hygiene measures no later than the time of eruption of the first primary tooth.
- The importance of cleaning a young child’s teeth if an infant falls asleep while feeding.
- The importance of tooth brushing of children twice daily with fluoridated toothpaste and a soft, age-appropriate sized toothbrush. Parents should use a ‘smear’ of toothpaste to brush the teeth of a child less than two years of age. For the two through five year old, parents should dispense a ‘pea-size’ amount of toothpaste and perform or assist with their child’s tooth brushing.
- The importance of initiating flossing when adjacent tooth surfaces cannot be cleansed by a toothbrush.
- The need to establish a dental home within six months of eruption of the first tooth and no later than 12 months of age
- The importance of avoiding caries-promoting feeding behaviors. In particular, parents should be advised that:
 - Infants should not be put to sleep with a bottle containing fermentable carbohydrates (such as milk).
 - At-pleasure breast-feeding should be avoided after the first primary tooth begins to erupt and other dietary carbohydrates are introduced.
 - Parents should be encouraged to have infants drink from a cup as they approach their first birthday. Infants should be weaned from the bottle at 12 to 14 months of age.
 - Repetitive consumption of any liquid containing fermentable carbohydrates from a bottle or no-spill training cup should be avoided.
 - Between-meal snacks and prolonged exposures to foods and juice or other beverages containing fermentable carbohydrates should be avoided.

FLOURIDE VARNISH/ORAL HEALTH EXAM

Qualifications for applying fluoride varnish:

- Health professional including: dentist, dental hygienist, physician and physician assistants.
- Have appropriate experience in working with young children.
- Have completed training on the appropriate process to apply fluoride varnish.

Programs applying fluoride varnish or completing oral health screening will:

- Obtain appropriate consent from the parent or guardian.
- Maintain client confidentiality.
- Make every attempt to apply varnish two to four times per year on each participating child.
- Provide services within a variety of public health settings such as, immunization clinics, physician offices, WIC offices, Head Start, Early Head Start, schools, child care facilities and in private homes for medically compromised patients.
- Complete a brief exam of the child noting any potential problems.
- Complete a dental caries risk assessment.
- Apply fluoride varnish.
- Provide instructions on follow up care.
- Provide any necessary referrals.
